QUALITIES

Continuous Learning, writing best practice and optimized code, leadership, sincerely working, truth speaking person, Fast learner, always growing, gather deep knowledge of every topic I touch.

ROLES AND RESPONSIBILITIES

➤ ROLES AND RESPONSIBILITIES AT “SAFETY LABS”

Product Based: Tele Medicine Health-Care/Home-Care Company

- I have done bug fixings, optimized, and enhance the performance of Server APIs and Client-application running on web servers and companies dedicated hardware.
- I have led the developer team to create a role-based authentication-authorization web-portal, using Java and Advanced Java, HTML5, CSS3, JavaScript top tier tricks to create impressive designs and APIs to connect patient and provider, worked on Salesforce as developer to designed the portal responsible to scheduler, track, control and plan days for practitioners and patients.
- Implemented best quality JavaScript and related library code on front-end applications to make application run seamlessly by changing the suitable architecture,
- Took care of all 6 client-side and front-end applications to create functionalities and made them work smoothly and bugs free,
- Connected with Q/A team and provided enough details and documentation to test the products,
- Worked with and, as a Salesforce Developer and Admin to configure and develop assigned sandbox with the team.

➤ ROLES AND RESPONSIBILITIES AT “NETCREATIVE MIND SOL”

3rd party Government project company, building government Web-portals and Mobile-apps

- Getting thorough the project documents to create and plan the project data flow with seniors and BA,
- Handled UI/UX development (using Figma) and coding them on JSP and HTML5,
- Worked on Newgen's products, like: OmniDoc, OmniScanner, and wrote code in Java, and Advanced Java, to create flow and implement validations,
- Fixing bugs making the project come online without issue,
- Fixed many unresponsive buggy APIs which were shut for several month.

“Thank you for considering my application. I am confident that my strong background in Back-end and Front-end (*Full-Stack*) Development combined with my passion for development will make me a valuable asset to the company. I am eager to contribute my expertise and drive success within your organization.”
